RAPPORT DÉTAILLÉ SUR DES POINTS CULMINANTS**DETAILED REPORT ON HIGHLIGHTS****INFORME DETALLADO SOBRE ASPECTOS DESTACADOS****AGREEMENT WITH TRUCK DRIVERS REGISTER: STUDY for COLLECTION OF DATA CONCERNING TERRESTRIAL CABOTAGE**

It is a research on the terrestrial cabotage throughout the national territory. For terrestrial cabotage we mean an offer of transport services within a EU member Country by a road carrier which is resident in another member Country. This study aims at qualifying and quantifying the typology of this phenomenon as well as its scope and frequency; furthermore, it intends to verify the occurrence of possible practices that hinder free competition, particularly referring to modes of realisation and transportation costs.

All this also in order to find and formulate improvement proposal as far as rules and regulations are concerned.

INTERNATIONAL MEETING ROAD SAFETY TOWARDS NEW SOLUTIONS: CHALLENGING POLICIES AND OPPORTUNITIES FROM NEW TECHNOLOGIES

Rome, 9-29-2016

To meet the challenge of road safety, more than repression a prevention of risky behaviour is necessary as well as major investments on technological research. The most common international orientations aim at technologies capable of preventing the road accident and its consequences, even beyond a desirable more and more correct behaviour of road users. Furthermore it is fundamental to confront with other Countries' best practices concerning road safety, throughout the world. This is the aim of the international meeting organised by PIARC INC and Anas S.p.A. to be held in Rome on September 29th, next.

YOUNG VIDEO MAKERS FOR ROAD SAFETY CONTEST

PIARC INC and ANAS S.p.A. have made common front to promote the culture of road safety referring to young people (aged 14-24) who are among the main victims of road accidents and deaths. Therefore, they launched the above contest, both at national and international level. Prizes will be awarded to the winners on the of the international meeting to be held in Rome on September 29th, next.

LAST BUT NOT LEAST...APPOINTMENT AS CHAIRMEN OF INTERNATIONAL TCs AND TFs for the cycle 2016-2019

The recognition of Italy's emerging role in PIARC is the appointment three Italian experts to three of the most prominent technical organism within PIARC.

- Chair of the TF A.1 Innovative Financing has been assigned to Massimo SCHINTU, executive director from AISCAT
- Chair of the National Road Safety Policies and Programs TC C.1 has been assigned to Roberto ARDITI, director Scientific Relations Direction from SINA Società Iniziative Nazionali Autostradali,
- Chair of the TF C.1 Security has been assigned to Saverio PALCHETTI from ANAS International Relations Unit , who is coordinator of PIARC technical activities in the Italian PIARC National Committee.
